TO BUILD AN APPLICATION TO TRACK ATTENDANCE OF STUDENTS AND VOLUNTEERS ATTENDING CLASSES AT MULTIPLE LOCATIONS OF NGO

- ❖ This application can be presented either as a website or an android app.
- ❖ Our team decided to call upon to create a web portal
- ❖ Few constraints are applied as well

The proposed App will function as follows:

- To add entry of a new student or volunteer
- To generate digital-ID's with a scannable QR
- Can scan the card to track attendance
- To allow mentors to receive feedbacks from each student

THE ADMIN CAN SEE ALL PARTICIPANT's DETAIL ON A SINGLE DASHBOARD

Our team also produced some additional features for better performance of the app.
